2017 NCGIS Conference

During this upcoming NCGIS Conference there will be multiple addressing sessions and training:

AddressNC - Building the AddressNC Statewide Address Database in partnership with Local Governments.

Master Address Repository - How having a MAR can help your agency and gaining a better understanding the FDGC standard.

Re-Addressing Camp LeJeune - Implementing enhanced 911 on Navy and Marine Corps bases.

How would you number this? - An interactive session to discuss different addressing scenarios – you bring questions and the panel and audience will discuss options for numbering, and hopefully we all go home with new ideas and solutions.

Workshop: **Building an Address Repository Using the FGDC Standard: Implementing Quality and Data Sharing.** Taught by Martha Wells of Spatial Focus

Sessions are subject to change.
