## Addressing SIG goes SOCIAL

The Addressing Special Interest Group board has been working to set up links on social websites as a way for the addressing community to communicate on a regular basis. Sites have been set up on LinkedIn and Twitter. A FaceBook page is under construction and should be available soon. With this in place, we will no longer be producing a Newsletter. Instead we will feed new information out to our group by way of these social media sites.

LinkedIn: [www.linkedin.com/in/carolinaaddressinggurus](http://www.linkedin.com/in/carolinaaddressinggurus)

Twitter: [Addressing\\_GURUS](#)

FaceBook: <http://fb.me/AddressingSIG> (Under Construction)

## Call for Online Presentation Ideas

We are looking for some ideas for 15 to 30 minute online presentations. If you have any ideas of something you would like to see presented or something you would like to present please send an email to [Addressing@Carolinaurisa.org](mailto:Addressing@Carolinaurisa.org)

Those who present or attend these online presentations will receive a certificate to use toward GISP credits.

## Local Update of Census Addresses (LUCA)

It's time to start thinking about 2020 Census. If you work for a state, county, city, township, or a federally recognized tribe you should be preparing to participate in LUCA. LUCA gives us the opportunity to review, update, and correct the Census Bureau's addresses and maps for our area. To see a schedule of LUCA events and other materials about the program see their website at <https://www.census.gov/geo/partnerships/luca.html>

# UNC 911 Addressing Listserv

Members of the Addressing Special Interest Group will automatically be added as a member of the UNC 911 Addressing Listserv. As a member you will be able to ask addressing questions, and also respond to others who have questions about addressing issues.
